4	Handle with 1 Nos. Bolt	1	Nos.

Description:

Hand Crank Blacksmith Forge Blower has a strong structure. Impellers (like fan blades) are made from cast aluminium. It offers ample air supply for your forge with vintage style. Hand operated forge blower can also be used indoor as well as outdoor small stoves. Two oil ports are provided for lubrication to enable smooth and noise free operation.

Specifications:

- 6" casing
- Cast iron gear
- 1:28 Gear ratio
- 1-4/5" outer dia. for outlet
- Ground steel worm shaft

Installation Steps

1. Fix the blower on stand through bolt, tighten it strongly with open ended spanner.
2. Set handle on shaft and tight it with bolt so it can rotate easily by hand.
3. Fit pipe on outlet with the help of screw.
